DORMANT ACCOUNTS — 2025

Two Northwind Traders customer accounts placed no orders in FY 2025 and are classified as dormant: Centro comercial Moctezuma (Mexico City, Mexico) and Consolidated Holdings (London, UK). Both accounts are under review for reactivation outreach in Q1 2026. Centro comercial Moctezuma last ordered in July 2024;

Consolidated Holdings last ordered in March 2024.

ACCOUNT CONCENTRATION RISK

Northwind Traders' top 3 accounts — Save-a-Lot Markets (USA), QUICK-Stop (Germany), and Ernst Handel (Austria) — together contributed \$226,220, or 34.2% of FY 2025 total revenue. This concentration represents a material revenue risk: the loss of any single one of these three accounts would reduce annual revenue by between 8% and 17%. Account management plans for all three are reviewed quarterly by Andrew Fuller (VP Sales).
