

Inventory & Reorder Alert Report — Q4 2025

Stock level review as of 31 December 2025 · Purchasing · Urgent

EXECUTIVE ALERT

Northwind Traders' December 2025 inventory count identified 12 product lines where current stock (units_in_stock) is at or below the defined reorder level. Of these, 8 require immediate purchase orders; 4 are under supplier monitoring due to the Tokyo Traders improvement plan. Purchasing must act before 15 January 2026 to maintain target service levels.

SUPPLIER RISK WATCH — TOKYO TRADERS PRODUCTS

Four Northwind Traders product lines sourced from Tokyo Traders (Tokyo, Japan) are under active monitoring as a result of the Q2 2025 delivery failures. Although Tokyo Traders' current stock levels do not trigger an immediate reorder alert, purchasing has been instructed to review these lines weekly given the supplier's 74% on-time delivery rate in 2025.

Product	Category	In stock	Reorder lvl	Buffer stock	Contingency supplier
Konbu	Seafood	24	5	+380%	New England Seafood C.
Tofu	Produce	35	0	N/A	Mayumi's (Osaka)
Hijiki	Produce	26	5	+420%	Mayumi's (Osaka)
Dried Plums	Produce	9	5	+80%	Mayumi's (Osaka)

STOCK TREND ANALYSIS — H2 2025

Overall Northwind Traders inventory levels declined 8% during H2 2025, reflecting strong order volume (245 orders in H2 2025 versus 163 in H1 2025). The Confections category experienced the sharpest inventory drawdown in Q4 2025 due to the holiday demand spike (+34% versus Q3). Purchasing increased forward orders for Confections lines from Specialty Biscuits Ltd (Manchester, UK), Pavlova Ltd (Melbourne, Australia), and Forêts d'érables (Ste-Hyacinthe, Canada) in November 2025; these orders are expected to arrive by 20 January 2026.

The Seafood category inventory recovery following the Q2 2025 Tokyo Traders disruption is complete. Current Seafood stock levels are within target range for all active product lines except Rogede sild (product #45, Lyngbysild), which requires an immediate reorder as noted above.

REORDER AUTHORITY

Purchase orders under \$5,000 may be raised by the Purchasing Department without VP approval. Orders between \$5,000 and \$15,000 require sign-off from Andrew Fuller (VP Sales). Orders above \$15,000 require board approval. All Tokyo Traders purchase orders, regardless of value, require Andrew Fuller co-sign while the supplier improvement plan remains active.
